Frequency response	20Hz-15Khz
Left and Right Channel	>60dB
bluetooth version	Version 5.3
bluetooth sound processing	DSP and A2DP
FM Transmission distance	10M
Effective distance of bluetooth microphone	0.5-2 M
FM frequency	87.5-108MHz
Transmit FM mode	Stereo digital PLL lock frequency

### VII. Notice

1. Do not turn the radio volume too high (usually 18 or below) to avoid the increase of the echo.
2. Although the transmission power of this product is relatively strong, better to skip the Frequency with strong signal in the local area to get a better sound quality.
3. Do not use the product in extremely high or low temperatures and in dusty, humid environments.
4. Avoid dropping the product to prevent damage to the surface or the body.
5. Do not disassemble the unit. If you have any questions, please contact your dealer.
6. Changes in product performance and functionality due to continuous improvement are subject to change without notice.

### 4. Bluetooth Pairing

When connecting the APBT225 with a mobile phone for the first time, it may need a pin code to finish the connection, for more details, please refer to the relevant manual.

5. Please open Bluetooth on your mobile phone and search for the device "APBT225" from phone menu list.
6. Select the device "APBT225"
7. Once the device has successfully connected exit your Bluetooth settings on your phone.

### V. Matching connection for additional devices

At boot time, the bluetooth car hands free will only automatically start connecting to the matching device that was connected last time.

Note: Some phones can be automatically connected when the bluetooth car is powered off after a power-free call. Some phones may need to grant permission for each connection. You can set it to "Automatically connect" For more information, please refer to the phone's user manual.

1. Use bluetooth hands-free calling  
(When your bluetooth hands free is idle or playing music)

### 2. Dial number

In the connected state, the phone number is directly dialed out by the mobile phone, and the sound is automatically sent through the cars audio speakers.

### 3. Answering the phone

In the connected state, to answer an incoming call, press  to answer. Press  again to hang up.

### 4. Rejecting a call

Long press  to reject incoming call.
